PROFESSIONAL SUMMARY

Operations professional currently serving as Operations Manager at Strategym, a strategy consultancy, extending Google Apps Script automation systems and leading client outreach and sales operations. Background includes managing 1,000+ monthly operational records, data validation, reconciliation, and reporting using Excel and Google Sheets. Proven ability to resolve discrepancies and support SOP driven environments, with growing practical experience in Apps Script, API integrations, and Bash scripting.

WORK EXPERIENCE

Strategym, Singapore

June 2026 – Present

Operations Manager

- Extended and customised a Google Apps Script lead management pipeline across 3 client accounts, adding deduplication logic and real time Telegram notifications for sales teams.
- Designed and built a Google Sheets sales and revenue dashboard from the ground up, giving each client live pipeline visibility and an automated weekly reporting digest.
- Led B2B outreach and research for a client acquisition programme, producing structured prospect research briefs and managing an active pipeline of 75+ businesses.
- Operated full sales cycles during client launch events, including warm lead calls, appointment scheduling, closing, and handover to client teams.
- Interviewed and hosted on-camera for a B2B podcast series (6+ episodes), running structured guest interviews start to finish.
- Coordinated pre-production, including recording schedules, guest confirmations, and custom guest questionnaires designed per client from a master template.
- Provided on-set production support, handed off footage to the editor, reviewed edits before release, and coordinated episode distribution.

Team Axis Pte Ltd., Singapore

October 2024 – May 2026

Operations Programme Coordinator Team Lead

- Managed and validated 1,000+ monthly operational records, ensuring high accuracy across attendance, scheduling, and reporting datasets.
- Performed data reconciliation across multiple sources, identifying discrepancies and resolving inconsistencies to maintain data integrity.
- Maintained and updated master datasets (scheduling, manpower, audit records), ensuring consistency and standardisation across workflows.
- Automated data consolidation and validation processes using Excel, reducing manual processing time by ~40% and improving reporting accuracy.
- Coordinated across internal stakeholders to resolve data issues, ensuring timely updates and alignment across departments.

ASUS Global Pte Ltd., Singapore

June 2024 – September 2024

Retail Sales Associate

- Monitored inventory data and ensured accurate stock records, supporting timely replenishment and reporting.

EnergyOne Gym (Safra), Singapore

March 2021 – April 2022

Fitness Trainer

- Maintained client records, attendance logs, and training data with accuracy to support service tracking and reporting.

AFTERSHOCK PC, Singapore

July 2020 – January 2021

Retail Sales Associate

- Managed inventory and logistics tasks, including stock tracking, replenishment coordination, and item retrieval, supporting accurate stock records and operational readiness.

LUXOTTICA LLC (Oakley), Singapore

May 2019 – March 2020

Retail Sales Associate

- Handled all POS transactions, including cash, card, and refund processing with zero discrepancy in daily reconciliation, demonstrating precision in data accuracy and financial record-keeping.

ADDITIONAL EXPERIENCE

Barker & Pooch, Singapore

September 2021 – January 2022

Canine Fitness Trainer

- Maintained detailed behavioural and training progression records for each dog, documenting improvements, regressions, and risk indicators to inform ongoing training plans.
- Recorded post-care observations, including reactivity, anxiety indicators, and motivation profiles, enabling accurate internal communication with trainers and pet owners.

National Trades Union Congress (NTUC)

December 2018 – February 2019

Event Support — Inventory & Operations

- Executed time-sensitive event setups, packing, and restocking tasks, maintaining workflow efficiency during peak operational periods.
- Monitored and replenished inventory for high-demand items across multiple campaigns, minimising stockouts and supporting continuous operations.

NATIONAL SERVICE

Singapore Police Force – Protective Security Command (ProCom)

May 2022 – May 2024

National Service Inspector

- Managed operational records and manpower data for 50+ personnel, ensuring accuracy in scheduling and deployment tracking.
- Identified operational discrepancies and implemented corrective actions to ensure data and process accuracy.
